

## Rambert Grades: Training that empowers

Rambert Grades is a new holistic training, promoting transferable skills, and developing the whole individual. It's inclusive and accessible to all, regardless of ability and prior experience. It inspires creativity and encourages dancers to make choices and develop their own interpretation of movement

The Rambert Grades syllabus has three pillars:

- **Performance**, including original solo material from leading choreographers
- **Creativity**, to encourage self-development and a sense of self enterprise
- **Technique**, to support students' dancing

Developed by a leading team of experts from Rambert and Rambert School with some of the most dynamic and relevant voices of contemporary dance in the UK – including material devised for the syllabus by Hofesh Shechter, Alesandra Seutin and Benoit Swan Pouffer. Rambert Grades is a new benchmark in contemporary dance training and education where examination is just part of a journey that enables and develops talent.
